

Rentify

Unified selling for Cambodian merchants

One catalog. Three ways to sell.

Personal storefront

Shared marketplace

In-store POS

One sale can leave three records out of step

The last item sells at the counter.

Online still says “in stock.”

Extra work. Missed orders.
Customer frustration.

For small Cambodian retailers

Pilot comparison: setup effort, stock accuracy and total merchant cost.

Competitor evidence

Alternative	Publicly described offer	Rentify comparison to test
Khmer24	Broad listings and product discovery	Work needed to manage sales
Smile Shop	Marketplace, delivery and payments	Brand ownership and buyer reach
Shopify	Online store and POS inventory sync	Local fit and total cost
Khmum eShop	Marketplace, merchant tools and POS	Setup, storefront and stock workflow

Khmum overlaps with the concept. Rentify’s advantage must come from execution and merchant fit.

Competitor analysis | Cambodia

Alternative	Publicly described offer	Comparison to test
Khmer24	Broad listings across categories	Stock and order workflow
Smile Shop	Multi-category app, delivery and COD	Merchant storefront control
VTENH	Product categories, payments, delivery	Seller terms and total cost
Khmum eShop	Marketplace, white-label tools and POS	Setup and catalog workflow

Category breadth, COD and merchant tools already exist. Test execution and merchant fit.

OPERATING INCOME (EBITDA)	Gross Profit – OpEx	-\$26,802.00	-\$36,747.00	-\$26,076.00
Tax	Loss-making all 3 years — no tax due	\$0.00	\$0.00	\$0.00
NET INCOME (AFTER TAX)		-\$26,802.00	-\$36,747.00	-\$26,076.00
BREAKEVEN (paying merchants)	Month-36 opex ÷ contribution margin			1,895

NET INCOME (AFTER TAX)

Summary Profit & Loss	Year 1	Year 2	Year 3
Total Revenue	\$3,456.00	\$25,131.00	\$67,744.00
Total Cost (COGS + OpEx)	\$30,258.00	\$61,879.00	\$93,819.00
Net Income	-\$26,802.00	-\$36,747.00	-\$26,076.00

Lean cost-base scenario — recommended plan from the Rentify 36-month model. Net income is negative through Year 3 by design: the deck’s 18-month profitability claim is not supported by the underlying merchant, churn and pricing assumptions. See companion workbook *Rentify_36_Month_Financial_Model.xlsx* (“Base-Lean” sheet) for the full monthly build.
