HOW THEY PAY

TAM

410,600

retail shops in Cambodia

\$22.4M / yr

SAM

65,400

specialized stores: fashion, beauty, electronics, home...

\$3.6M / yr

SOM

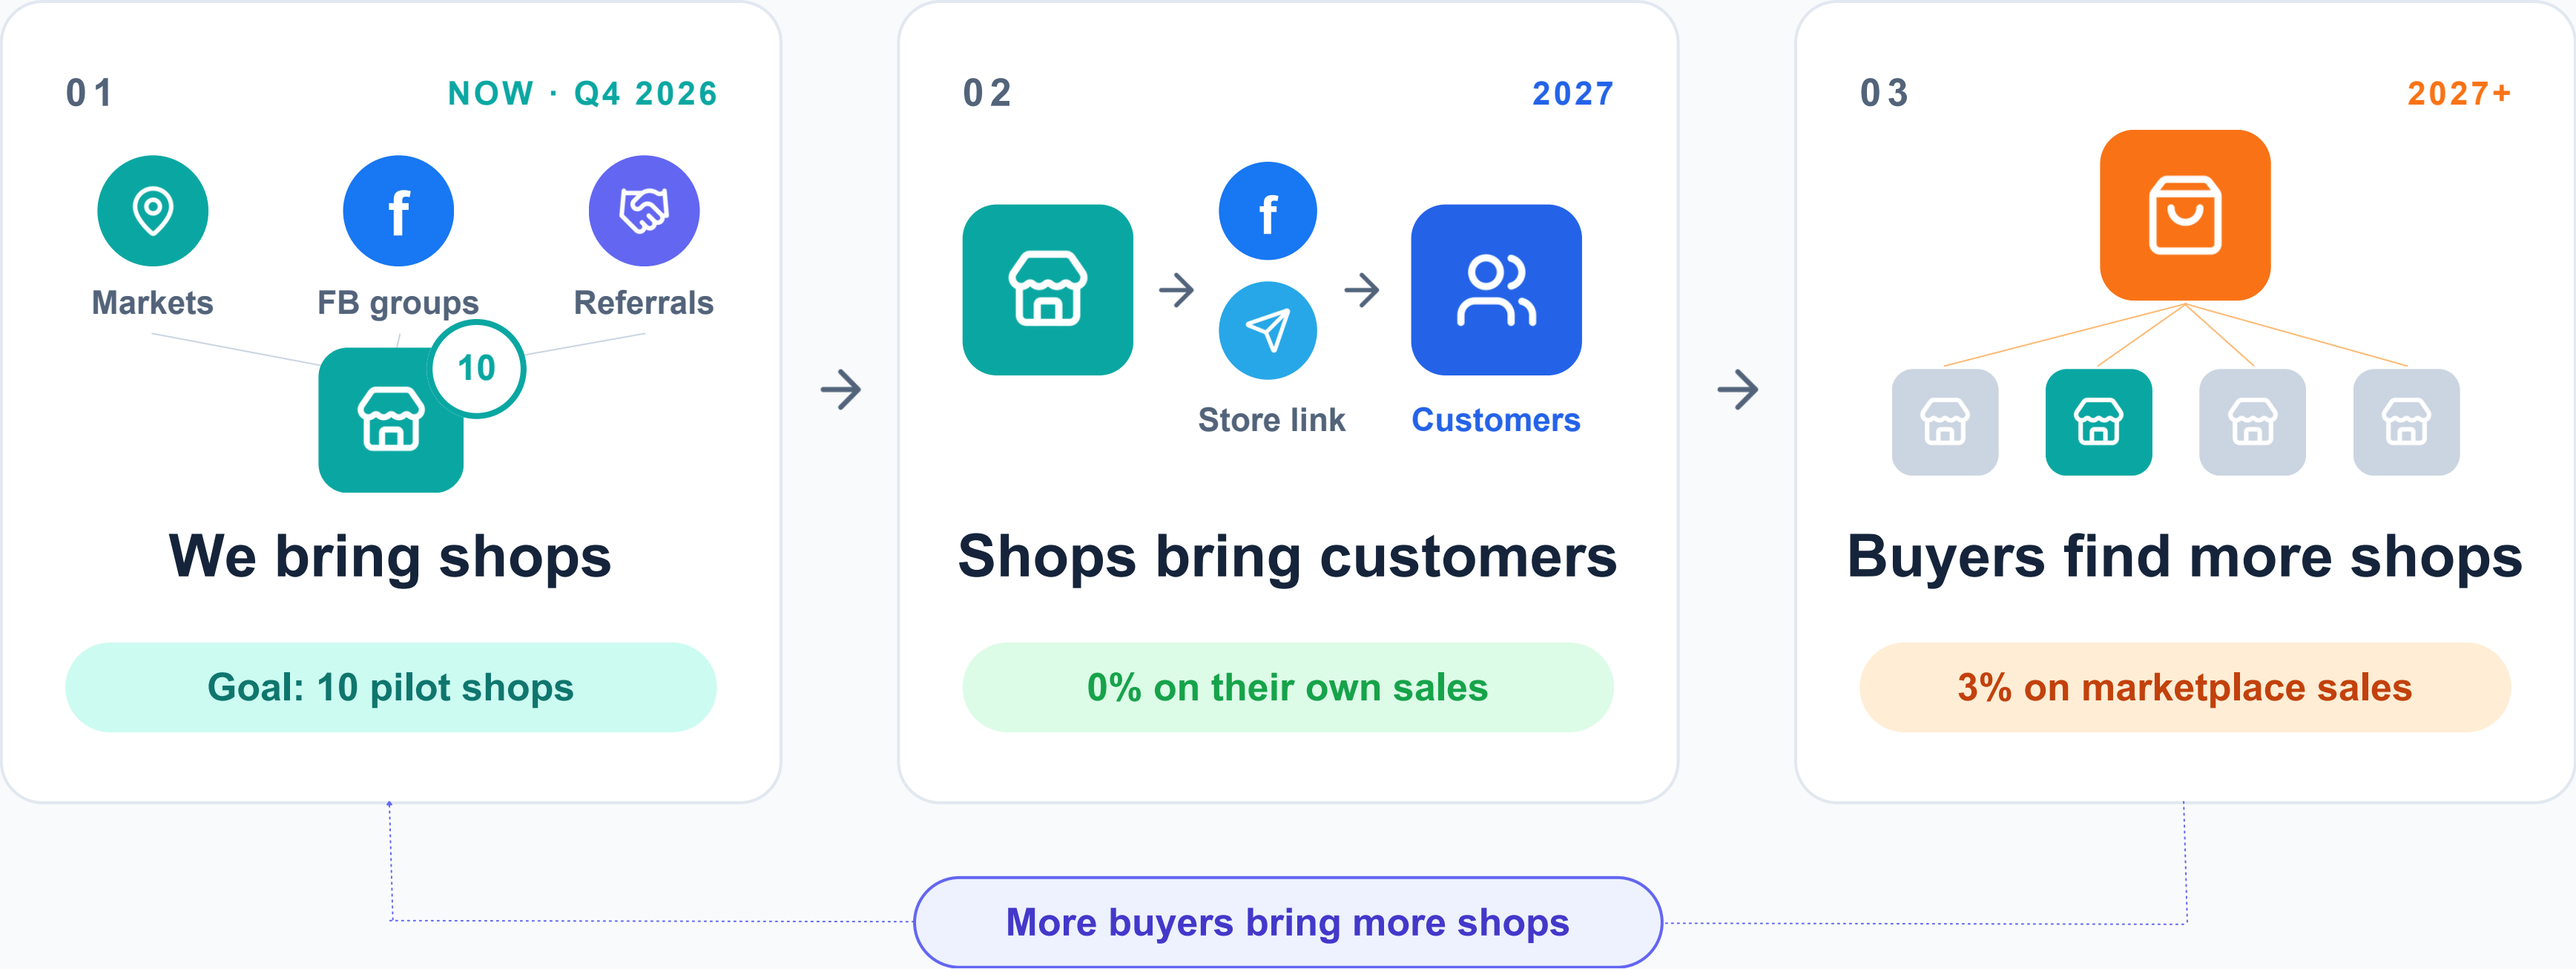

≈1,130

paying shops by Year 3

\$61.6K / yr

*2025 projected. Sources: Ministry of Commerce, iTrade Bulletin Mar 2025 (Profitence e-commerce report 2024); NIS Economic Census 2022. Value = shops × US\$54.5/yr (\$5 plan, 10% VAT removed); SOM from team model; Proposed 3% commission, to be tested with pilot merchants.

Go-to-market: merchants first, buyers follow

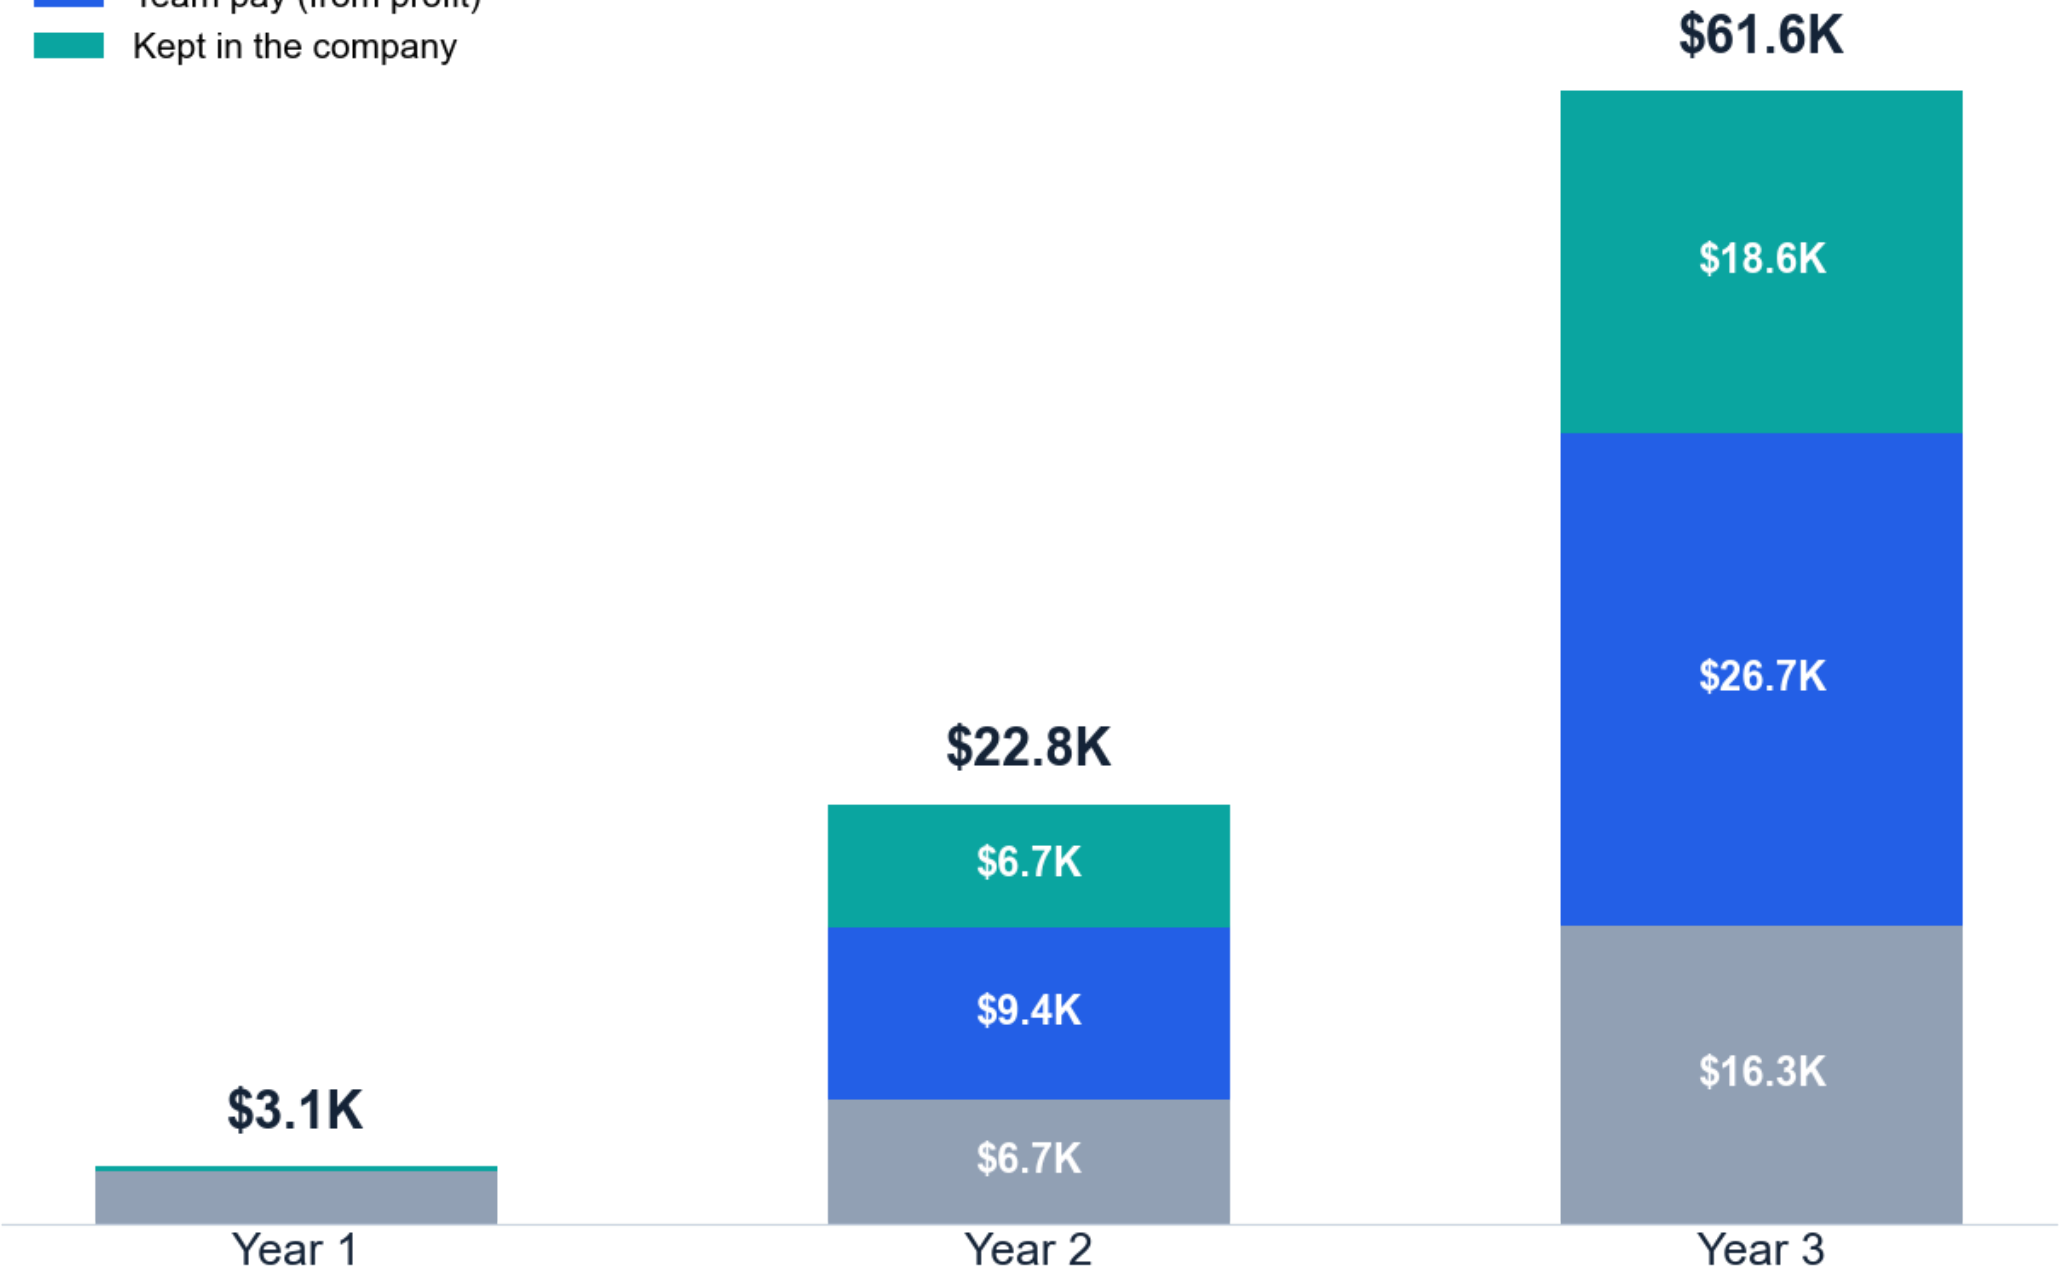

Three-year projection

Bootstrapped: team unpaid in Year 1, then paid from profit · subscriptions only

Where each year's revenue goes

- Running costs + tax
- Team pay (from profit)
- Kept in the company

\$61.6K

Year 3 revenue after 10% VAT

Year 1

covers its own costs, team unpaid

~110

paying shops cover all running costs

\$1.1K

cash needed to start

Team pay per founder: \$0 → ~\$150 → ~\$420 a month (half of profit, max \$500). With 3% commission the team reaches \$500 in Year 3 and \$27.0K is kept. After 10% VAT and Cambodian taxes. All inputs to validate in the pilot.

What merchants told us

Elora

Perfume store

MERCHANT

"I sell on Facebook and in my shop. Keeping stock the same in both is my biggest headache."

KT89

Watch Store

MERCHANT

"A POS that also puts my menu online would save me hours every week."

Apsara Fairy

Restaurant & coffee

MERCHANT

"If it is free to start, I would try the marketplace this month."

Hyper-Tech Store

Electronics store

MERCHANT

"Customers ask on Telegram if items are in stock. I have to check by hand."

Dr. Po Sovinda

Senior Lecturer, Strategy

ADVISOR

"Prove it with a small pilot first. Measure stock accuracy and repeat use."

How Rentify compares

	WHAT THEY OFFER			WHY CHOOSE RENTIFY
	Marketplace	Storefront	POS	
Khmer24 · VTENH Marketplaces				Your own brand too
Facebook page Social selling				Real stock and checkout
POS apps Counter only				Sell online, same stock
Shopify Global store builder				Cambodian marketplace built in
Khmum Contact form to join · no public prices				Sign up yourself · free start
 Rentify				All three · one stock · free to start

Khmum proves Cambodian merchants want this. Rentify makes it simple enough for any small shop to start today, for free.

Lit tiles = channels each alternative publicly offers (checked Sep 2026). Khmum shops sell as a page in the Khmum app or via a custom white-label app. Full comparison in appendix.

Financial Projection

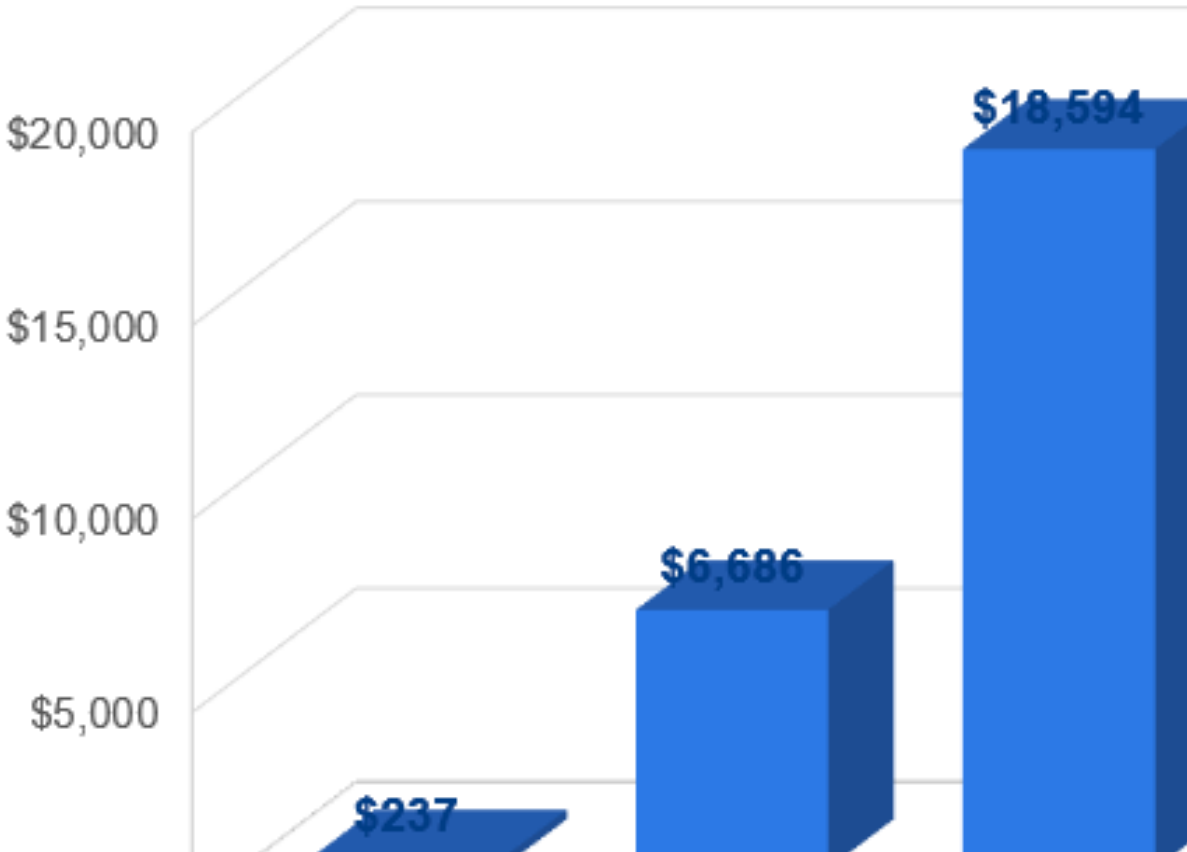

Financial Item	Assumptions	2026	2027	2028
Sales Revenue	\$5/shop/month subscription 10% VAT removed	\$3,142	\$22,846	\$61,586
Cost of Goods Sold	Hosting, database, storage, email \$50–\$225/month + 14% withholding	\$687	\$1,569	\$3,013
Gross Profit	Revenue – Cost of Goods Sold	\$2,455	\$21,277	\$58,573
Sales & Marketing	10% of revenue + referral credits Founders lead growth	\$472	\$2,646	\$6,869
Software, Office, Legal	Shared AI tools, registration (~\$840), patent tax. No office rent	\$1,687	\$847	\$1,721
Team Pay (incl. NSSF)	Unpaid in 2026, then half of profit Maximum \$500/founder/month	\$0	\$9,426	\$26,741
Total Operating Expenses	Marketing + Software/Office/Legal + Team Pay	\$2,159	\$12,919	\$35,331
Operating Income (EBITDA)	Gross Profit – Operating Expenses	\$296	\$8,358	\$23,242
Tax on Profit	1% monthly prepayment 20% profit tax	\$59	\$1,672	\$4,648
Net Income (After Tax)	Retained as company growth reserve	\$237	\$6,686	\$18,594

BREAK-EVEN POINT	About 110 paying shops cover running costs
FOUNDER PAY TARGET	About 765 shops fund 5 founders at \$500/month by Year 3

Summary Profit & Loss	2026	2027	2028
Revenue	\$3,142	\$22,846	\$61,586
Operating expenses	\$2,159	\$12,919	\$35,331
Net income after tax	\$237	\$6,686	\$18,594

USD • 2026–2028 projections

NET INCOME (AFTER TAX)

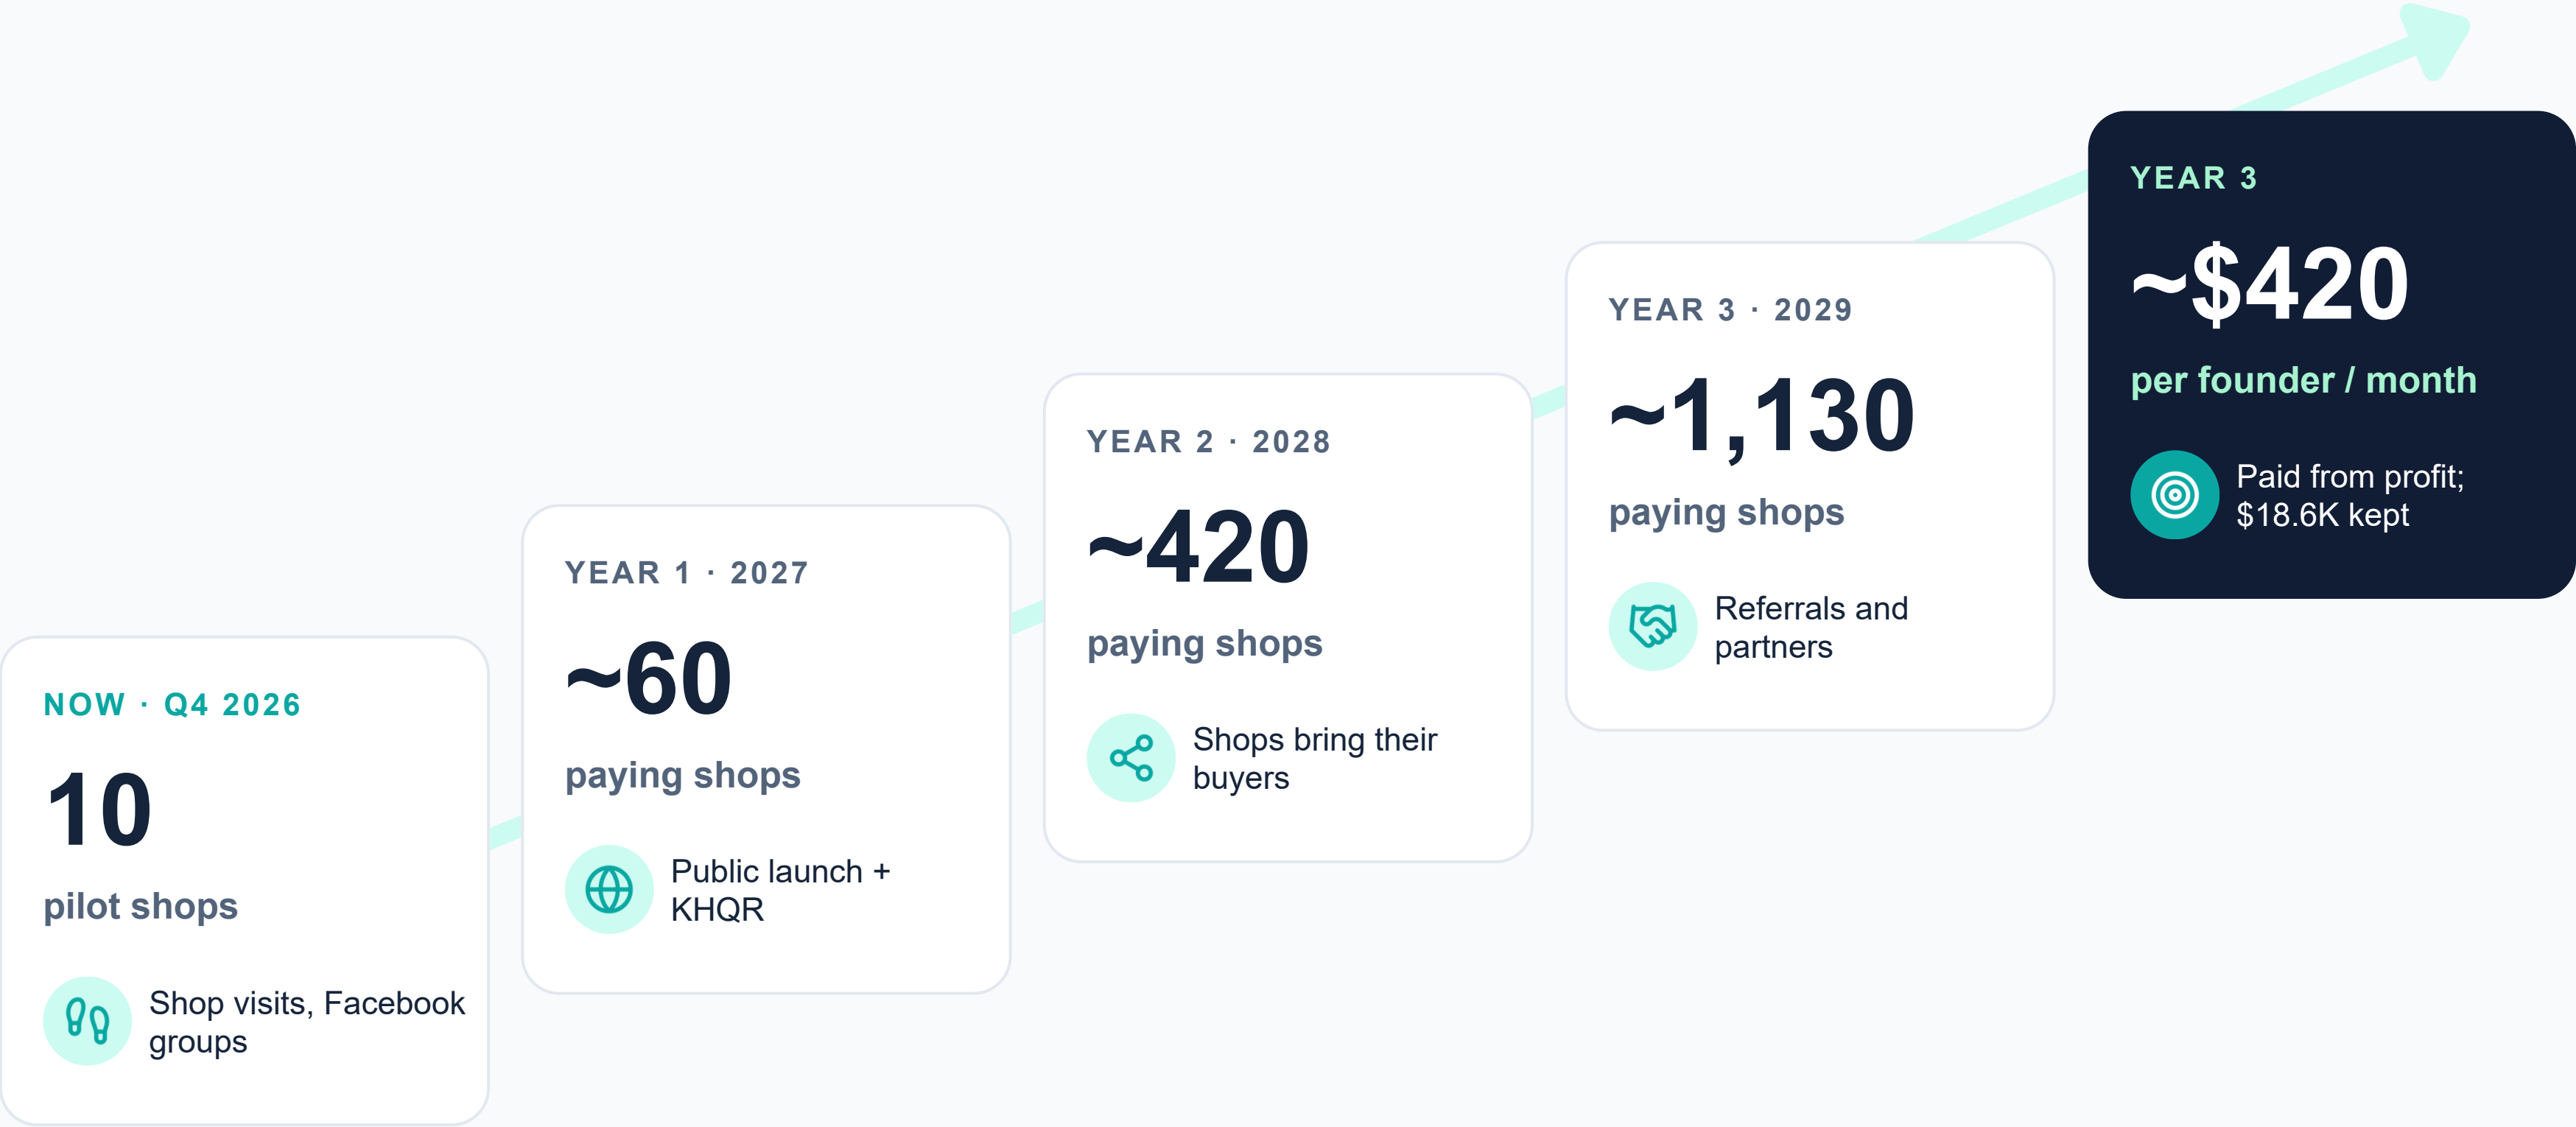

\$25,517

3-year total net income after tax

3-year totals: Revenue \$87,574 | Operating expenses \$50,409 | EBITDA \$31,896 | Tax \$6,379

From 10 shops to profit

Paying shops = yearly average from the team's financial model. Pilot passes if 7 of 10 shops stay active, stock is ≥99% accurate and 6 of 10 will pay.

Business model canvas

Key partners

- Pilot merchants
- Delivery carriers
- Payment provider (online payments, 2027)
- SME associations

Key activities

- Build and run the platform
- Onboard and approve sellers
- Buyer support and moderation

Key resources

One-store catalog and stock
Storefront templates, marketplace, POS

Value proposition

- Merchants: sell on their own storefront, the marketplace and at the counter from one store.
- Buyers: products from many Cambodian stores with clear seller and delivery details.

Relationships

- Assisted onboarding
- Khmer and English support

Channels

- Shop visits, Facebook seller groups
- Merchant storefront links, referrals

Customer segments

- Facebook sellers
- Small retail shops selling online and at a counter
- Buyers in Cambodia

Cost structure

- Engineering and hosting
- Seller onboarding and moderation
- Buyer support
- Sales and marketing

Revenue streams

Subscriptions:

- Free, Starter \$5,
- Pro \$10 per month (proposed)
- Marketplace commission: proposed 3% on marketplace sales, from 2027; 0% on own storefront and POS

Market sizing: how we counted

	Shops	Basis	× US\$54.5 / yr
TAM	410,623	All retail establishments, ISIC division 47, excluding fuel stations (4730)	US\$22.4M
SAM	65,433	Specialized non-food retail, ISIC 4741–4774: fashion, cosmetics, electronics, household, books, toys, sports, second-hand	US\$3.6M
SOM	≈1,129	Year 3 subscription revenue (US\$61,586) ÷ US\$54.5 — average paying shops in the team model	US\$61.6K

Why US\$54.5? The \$5 average plan × 12 months, with 10% VAT removed. Free-plan shops pay no subscription.

Market context Cambodian e-commerce: US\$1.51B (2024) → US\$1.78B (2025, projected), +17.9% a year. Fashion 37% and beauty 20% of online purchases. This is sales value, not Rentify revenue.

Small businesses 49% of Cambodian establishments have only one employee (Economic Census 2022).

Not counted Marketplace commission, and home-based Facebook sellers the census barely captures (only 162 establishments list internet retail as their main activity).

Cambodia delivery partner options

Carrier	Publicly described offer	Confirm before pilot
Vireak Buntham	Parcels, tracking, COD, insurance	Routes, prices, remittance
J&T Express	Cambodia parcel booking and tracking	Local COD, returns, insurance
ZTO Cambodia	Domestic parcels; business inquiry	Quotes, COD and data link
Grab for Business	Urban parcel booking and tracking	Area, size limit and COD

All candidates are prospective. Compare identical parcels; no carrier terms are signed.

SWOT Analysis

Rentify vs Khmum eShop — our closest direct Cambodian competitor (research, Sep 2026)

STRENGTHS

- One catalog, one stock across storefront + marketplace + POS — no duplicate entry
- Sign-up is instant and free; Khmum needs a contact form and has no public pricing
- Cambodia-first, Khmer-first design built for micro-merchants
- Combined storefront + marketplace reach in a single product

WEAKNESSES

- Launch is COD-only — Khmum already documents ABA linking and ACLEDA KHQR
- No product variants yet; checkout rejects them pending end-to-end testing
- No membership, AI image editing, or tax-invoice tools like Khmum ships
- Pre-launch: no paying merchants, no seller-support or training service yet

OPPORTUNITIES

- Khmum's own pricing is unpublished — room to win on clear, free-to-start pricing
- Cambodia e-commerce growing ~18%/yr, led by fashion and beauty
- "One catalog, one stock" is a real pain point to validate in a pilot
- Named courier deals (J&T, Vireak Buntham) could become a verified edge

THREATS

- Khmum is a proven direct competitor: 10K+ downloads, 400+ MSMEs supported
- Facebook/TikTok selling and apps (Smile Shop, VTENH, Khmer24) already offer wide selection, COD, delivery
- Shop-management tools can keep merchants on Khmum even with few marketplace orders
- Our own UI and production-readiness gates are still open — judges may probe this
